SIFTON RESIGNED.

MINISTER OF THE INTERIOR STEPS DOWN AND OUT.

Bulletin Special.

Honorable Clifford Sifton, Minister of the Interior resigned this afternoon owing to a difference with the Premier on the school clause of the Autonomy Bill.

EXTENDED ACTION

IN THE VALLEY OF THE SHAKHE

Russians Captured a Railway Bridge in Japanese Centre and Japanese Damage the Russian Left.

Bulletin Special.

St Petersburg, March 1st—Fighting on a large scale is in progress between the Russians and Japanese armies in Manchuria. Gen. Kuropatkin after meeting the initiative of the Japanese in the east part of the Shakhe Valley assumed the aggression in the western portion yesterday and under cover of a heavy artillery fire from Putiloff Hill and Vorogod Hill succeeded in driving the Japanese from a position in the outskirts of Sandiau. Simultaneously the Russians attacked and captured a railway bridge in the Japanese centre. Much more serious are the Japanese operations against the Russians left wing which threatens unless quickly checked to oblige Gen. Kuropatkin to abandon his position on the Hun river which he has occupied during the winter. There is no confirmation of the report that the Russian Commander has notified the Emperor that a retreat northward has become imperative.

ON TRIAL FOR MURDER.

The trial of Chas. King, charged with the murder of E. Hayward at Lesser Slave Lake in September last was begun in Supreme Court this morning before Judge Harvey. The prisoner was arraigned on Saturday and pleaded not guilty. After the selection of a jury and the preliminary arrangements for the trial the taking of evidence was begun. The evidence of the brother of the missing man this morning was practically the same as at the preliminary hearing. In answer to a number of questions he told the story of this remarkable dream reported in the Bulletin some time since. The hearing was resumed at 2 p.m. and is continuing this afternoon.

ARMS UNEARTHED

SECRET STORE OF WEAPONS FOUND

Conditions in Russia Not Improved.

Polish Strike Expected to Develop

Bulletin Special.

Moscow, March 1st.—A secret store of bombs, dynamite and revolvers has been discovered in a suburb of Moscow. It is now believed that the assassin of Sergius came from Paris. His name is still unknown. St. Petersburg, March 1st.—Saturday being the anniversary of the emancipation of the serfs rumors have been in circulation that the day has been selected for notable events that the workmen are planning an immense revolutionary demonstration. According to other reports the government intends commemorating the anniversary by issuing a manifesto establishing a form of representative legislative body.

Warsaw, Mar. 1st.—The strike situation in Poland is not encouraging. A general strike of shop assistants is expected tomorrow unless their demands are conceded. Seven per cent. of the employees are willing to give it but the remainder refuse. Domestic servants threaten to strike tomorrow. The coal supply is diminishing and prices are advancing rapidly.

QUALITY Most Important in MEDICINE

QUALITY is the most important thing in medicine—QUALITY of materials and QUALITY of work. Without QUALITY the best effort of your physician is useless.

GOOD AGENTS FOR THE
Oliver Typewriter
IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

THE TEXT OF AUTONOMY BILL.

From the Ottawa Citizen.

The following is the text of one of the North West autonomy bills which Sir Wilfrid Laurier introduced in the house on Tuesday, the bills relating to Alberta and Saskatchewan being of the same tenor:

An act to establish and provide for the government of the province of Saskatchewan.

Whereas in and by the British North America Act, 1871, being chapter 28 of the Acts of the Parliament of the United Kingdom passed in the session thereof, held on the 34th and 25th year of the reign of Her late Majesty Queen Victoria, it is enacted that the Parliament of Canada may from time to time establish new Provinces in any territories forming for the time being part of the Dominion of Canada, but not including in any province thereof, and may, at the time of such establishment, make provision for the constitution and administration of any such province, and for the passing of laws for the peace, order and good government of such province and for its representation in the said parliament.

And whereas it is expedient to establish as a province the territory herein after described and to make provision for the government thereof and the representation thereof in the parliament of Canada.

Therefore His Majesty, by and with the advice and consent of the Senate and the House of Commons of Canada enacts as follows:

PROVINCIAL BOUNDARIES

The territory comprised within the following boundaries that is to say: Commencing at the intersection of the International boundary dividing Canada from the United States of America by the west boundary of the province of Manitoba; thence northerly along the said west boundary of the province of Manitoba to the north-west corner of the said province of Manitoba, thence continuing northerly along the centre of the road allowance between the twenty-ninth and thirtieth ranges west of the 6th principal meridian in the system of Dominion lands surveys as the said road allowance may hereafter be defined in accordance with the said system to the north boundary of the seventeenth township in the said system of the Dominion lands surveys; thence easterly along the said north boundary of the seventeenth townships to the meridian of one hundred degrees west longitude from Greenwich; thence due north along the said meridian of one hundred degrees west longitude from Greenwich to the sixteenth degree of north longitude; thence westerly along the parallel of the sixteenth degree of north latitude to the fourth meridian in the said system of Dominion lands surveys as the same may be hereafter defined in accordance with the said system; thence southerly along the said fourth meridian to the said international boundary dividing Canada from the United States of America; thence easterly along the said international boundary to the point of commencement: is hereby established as the province of the Dominion of Canada, to be called and known as the province of Saskatchewan.

The provisions of the British North America Acts, 1867 to 1886, shall apply to the province of Saskatchewan in the same way and to the like extent as they apply to the provinces heretofore comprising the Dominion, as if the said province of Saskatchewan had been one of the provinces originally united, except such provisions as are in terms made, or by reasonable intendment may be held to be specially applicable to or only to effect, one or more not the whole of the said provinces (Manitoba Act section 2; territorial clause 2).

The said province shall be represented in the Senate of Canada by

four members, otherwise provided by the Parliament of Canada.

Subject to the provisions of the text not the whole of the said provinces, shall be represented in the House of Commons by five members, each of the electoral districts defined schedule A to this act returning one member, such representation to be readjusted from time to time according to the provisions of the fifty-first section of the British North America Act, 1871.

If there is at the time this act comes into force a subsisting parliament of Canada the next preceding session shall not come into force until the dissolution or expiry of such parliament, but the said province, and the province of Alberta, also established by an act of the present session, shall until such dissolution or expiry, continue to be represented in the house of commons as provided by chapter 60 of the statutes of 1873, each of the electoral districts defined in that part of the schedule to the said act which relates to the northwest territories, whether such districts is wholly in one of the said provinces, or partly in one and partly in the other of them, being represented by one member. (Territorial draft clause 3).

ELECTORS' QUALIFICATIONS

Under the parliament of Canada otherwise provides the qualifications of voters for the election of members of the House of Commons and the proceeding sat and in connection with election of such members shall, mutatis mutandis, be those prescribed by law at the time this act comes into force with respect to such elections in the North West Territories.

The Executive Council of the said province shall be composed of such persons, under such designations, as the Lieutenant-governor shall, from time to time think fit (Manitoba Act, section 7; Territorial draft clause 5). Unless and until the Lieutenant-governor in council of the said province otherwise directs, by proclamation under the great seal the seal of government of said province shall at, (Manitoba Act, section 8.)

The Lieutenant-governor in council shall as soon as may be after this act comes into force adopt and provide a great seal of the said province and may from time to time change such seal.

There shall be a legislature for the said province consisting of the Lieutenant-governor and one house to be styled the legislative assembly of Saskatchewan. (Manitoba Act, section 9).

TWENTY-FIVE MEMBERS

Until the legislature otherwise provides the legislative assembly shall be composed of twenty-five members to be elected to represent the electoral divisions defined in schedule B to this act. (Manitoba Act section 13.)

Until the legislature of the said province otherwise determines, (all the provisions of the law with regard to the constitution of the legislative assembly of the North West Territories and the election of members thereof shall apply mutatis mutandis to the legislative assembly of the said province and the election of members thereto respectively.

The writ for the election of the members of the first legislative assembly of the said province shall be issued by the Lieutenant-governor within six months after this act comes into force.

THE COURTS

Until otherwise provided by competent authority, and subject to the provisions of this act, all laws and ordinances in force in the territory comprised in the said province when this act comes into force, and all courts of civil and criminal jurisdiction and all commissions, powers and authorities, and all officers, judicial administrative and municipal, existing or holding office at that time continue therein as if such territory had not been established as a province. (B.N.A. Act, 1871, section 129; Territorial draft, clauses 13 to 14.)

Nothing in this act shall in any way prejudice or affect the rights of properties of the Hudson's Bay Company acquired, held or existing under and by virtue of the conditions contained in the said deed of surrender. (Manitoba Act, section 34.)

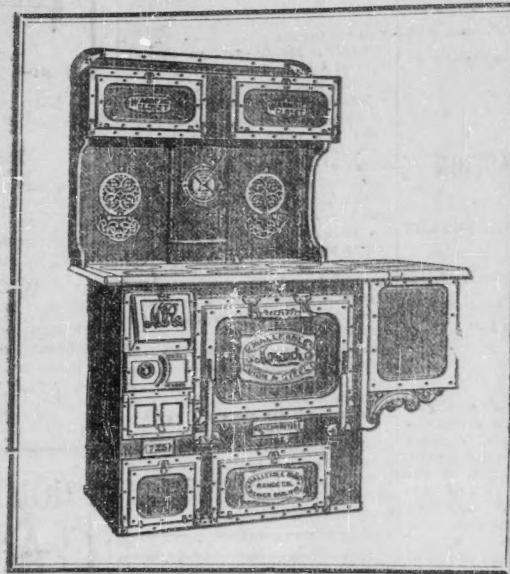

FINANCES

The following amounts shall be allowed as an annual subsidy to the province of Saskatchewan and shall pay by the government of Canada half yearly instalments in advance to the said province, that is to say:

(a) For the support of the government and legislative, fifty thousand dollars;

(b) On an estimated population of two hundred and fifty thousand at

Continued on page three.

ROSS BROTHERS LIMITEDARE THE SOLE AGENTS
IN EDMONTON FOR THE**MONARCH
RANGE . . .**

There is no question as to what this Range can do or its durability, as thousands and thousands of them are in use on this continent, and so far as we have been able to learn no fault has yet been found with them.

The main body of this Range is built up of sheet steel, and all the other parts that require to be cast are malleable iron. The top is ground to a bright steel finish, and is so heavy that, no matter how long or how hot you heat it, you cannot make it warp or get out of shape.

You will notice that the oven has a drop door, and the above cut illustrates the strength of this door, as any man can stand on it when it is open without straining it in the least. This will give some idea of the strength of the Range, as all its parts are as strong as this cut of the oven door open with the salesman standing on it would convey to you.

It is a wonderful baker, a very quick heater, and its water front is so constructed that it will heat water nearly twice as quick and on a much less quantity of fuel than any other range now on the market.

The purchaser of a MONARCH RANGE insures a satisfaction that cannot be measured in dollars and cents, for at the end of ten years' use it will operate as easily and be just as good as when first started.

Remember the MONARCH when you want to purchase a Range.

Ross Bros. Ltd.

The Text of Autonomy Bill.
Continued from page two

eighty cents per head, two hundred thousand dollars subject to be increased as hereinafter mentioned, that is to say a census of the provinces shall be taken in every fifth year reckoning from the general census of nineteen hundred and one; and an approximate estimate of the population shall be made at equal intervals of time between each quinquennial and decennial census; and whenever the population by any such census or estimate exceeds two hundred and fifty thousand which shall be the minimum on which the said allowance shall be calculated the amount of the said allowance shall be increased accordingly and so on until the population has reached eight hundred thousand souls.

The provisions of section 93 of the British North America Act, 1867, shall apply to the said province as if at the date upon which this act comes into force the territory comprised therein were already a province, the expression "the Union" in the said section being taken to mean the said date.

EDUCATION

Subject to the provisions of said section 93 and in continuance of the principle heretofore sanctioned, under the North West Territories Act, it is enacted that the legislature of the said province shall pass all necessary laws in respect of education, and that it shall therein always be provided (a) that a majority of the ratepayers of any district or portion of said province or of any less portion or subdivision thereof, by whatever name the same is known, may establish such schools therein as they think fit and make the necessary assessments and collections of rates therefor and (b) that the minority of the ratepayers therein whether Protestant or Roman Catholic may establish separate schools thereon, and make the necessary assessments and collections of rates therefor, and (c) that in such case the ratepayers establishing such Protestant or Roman Catholic separate schools shall be liable only to assessment of such rates as they impose upon themselves in respect thereof.

In the application of public moneys by the legislature in aid of education and in the distribution of any moneys paid to the government of the provinces arising from the school funds established by the Dominion Lands Act there shall be no discrimination between the public schools and the separate schools, and such moneys shall be applied to the support of public and separate schools in equitable shares or proportion.

PUBLIC LANDS

As the public lands in the said province are to remain the property of Canada, there shall be paid by Canada to the said province annually by way of compensation therefor a sum based upon the estimated value of such lands (namely \$37,500,000) the same being assumed to be of an area of 25,000,000 acres and to be of the value of \$1.50 per acre, and upon the population of the said province as from time to time ascertained by the quinquennial census thereof, such sum to be arrived at as follows:

The population of the said province being assumed to be at present 250,000 the sum payable until such population reaches 400,000 is to be one per cent. of such estimated value or \$375,000.

Thereafter until such population reaches 800,000 the sum payable is to be one and one-half per cent. of such estimated value, or \$362,500.

Thereafter until such population reaches 1,200,000 the sum payable is to be two per cent. of such estimated value or \$750,000.

And thereafter such payment is to be three per cent. of such estimated value, or \$1,125,000.

In addition compensation for such lands there shall be paid by Canada to the said province annually for five years from the time this act comes into force to provide for the construction of necessary public buildings one quarter of one per cent. of such estimated value or \$293,500.

Noisome as the province is not in debt the said province shall be entitled to be paid and to receive from the government of Canada by half-yearly payments in advance interest at the rate of five per centum remittable on the sum of eight million one hundred and seven thousand five hundred dollars.

SWAMP LANDS

A sum equal to the value of two million five hundred and thirty-two

Regina, Feb. 28th.—About forty members of the R. N. W.M.P. are preparing at the Regina barracks to leave March 10th, to open and permanently maintain the overland route to the Yukon via Edmonton and the Peace River. Inspector Constance will be in charge. The men are volunteering for two years. Inspector Constance has been in Edmonton several days completing details previous to the departure of the expedition.

Big G. T. P. contract Reported.

Vancouver World.—The World has received an unconfirmed report from Helena, Mont., that Peter Larson, the millionaire railroad contractor of that city who built many miles of the main lines of the Northern Pacific, Great Northern and Canadian Pacific, has secured in conjunction with Foley Brothers, contractors of St. Paul, the contract for the construction of a large part of the western portion of the Grand Trunk Pacific.

Mr. Larson's bid is the east, presumably figuring on the contract, and those business associates admit that there may be some bias to the report but they refuse to confirm it.

It is said the contract involves \$15,000 or \$20,000, and is the largest railway contract awarded in years.

WEEKLY MEETING

OF THE CITY COUNCIL

Steam laundry wants protection—A law suit in sight—Debentures may be sold.

The city council met in regular session last evening, all the members being present with the exception of Mayor M. Kanak who had not returned from Ottawa.

A letter from Mr. Stanton re the cost of changing the city telephones to central energy phones was filed.

S. Nishkin asked for permission to raise a one storey building adjoining his and add a second storey. The request was granted.

WANTS PROTECTION.

The proprietor of the Edmonton steam laundry wrote the council asking that a license be put on Chinese laundries and that these institutions be forced to make connection with the city water and sewer services. Mr. Hanby addressed the council on the matter, urging that it was unfair to expect the laundry to compete with the Chinamen. In answer to a question he said a tax of \$100 per year would be satisfactory and that they were willing that this should apply to all laundries but not to women doing washing in their houses or from house to house. Secretary Kinnaird pointed out that the by-law formerly in existence had been upset and it would be necessary to re-enact it to take action in the matter. The council was disposed to look with favor on the proposal to make the laundries connect with the water and sewer services and referred the matter to the license and police committee for reports.

MAY HAVE A LAW SUIT.

Mr. E. T. Bishop informed the council that he had been instructed by Dr. Steel, of Lévis' Anne, to enter a claim against the city for \$200 damages for injuries sustained in a runaway on Jasper avenue west. The city solicitor will report on the liability of the city in the matter.

Several communications of minor importance were filed or referred to the commissioners.

Beck Emery Newell, wrote that the Dominion Government would remit the fines levied on disorderly houses and sent to Regina.

MAY SELL DEBENTURES.

Ex-Mayor Short addressed the council on behalf of a client who wished to purchase only debentures. A lengthy discussion ensued after which the Secretary was instructed to sell the debentures not on hand at \$3.50 or less. Mr. Short intimated that his clients would probably take all the unsold debentures at this figure.

MONEY FOR CURRENT EXPENDITURE.

Two by-laws for \$13,000 and \$17,000 respectively were read three times and passed. The first was to provide for the current requirements until the taxes are received, the second to cover the amount of last year's local improvements.

TELEPHONE EXTENSION.

Mr. G. Dose of Beaver Hills, was introduced by Ex-Mayor Short and addressed the council with a view to having the telephone system extended from the Fort to Beaver Hills. After a brief consideration the question was left with the commissioners for report.

BY-LAWS READ.

The by-law to amend the pedlar's by-law and that to amend the fire by-law by releasing Blocks 2 and 3 H. R. were read three times and finally passed.

MISCELLANEOUS.

The commissioners were given power to act in the matter of renovating the immigrati ion hall.

Three reports from the Medical Health Officer were read and adopted. The commissioners were asked to report on a suitable building for an isolation hospital.

The city solicitor was instructed to prepare a by-law regulating any new survey of lots which may be made, so that they would correspond with the present surveys.

A report from the Special Committee was adopted recommending that the proposed pamphlet by Dr. Wade be not purchased.

The streets and parks committee recommended that Boundary avenue be widened from Jasper north. The report was adopted.

val last Friday evening, and through
whose efforts the affair was such a
success.

dy-49-chg.

A resolution was passed urging on the Dominion Government the wisdom of establishing a militia corps here.

The police are to be instructed to see that horses left on the streets are tied.

A discussion came up on the demoralized condition of the pork market during the winter and Ald. Boyle recommended that encouragement be given toward starting a good pork packing establishment. Ald. Griesbach had gone into the matter and said the local market was too small and the packer could not get into the Manitoban market on account of the freight rates.

The acting Mayor introduced Mr. Hargreaves, the newly appointed Commissioner of Public Works and the usual greetings and good wishes were exchanged.

The accounts were ordered paid and the meeting adjourned.

Superfluous Hair
Removed by the New Principle
De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklets—the most complete treatise on Superfluous Hair ever published—containing the testimonies of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it to-day to

The Text of Autonomy Bill.
Continued from page three.

thousand acres at the rate of one dollar and fifty cents per acre shall be capitalized for the benefit of the province, which said sum shall be increased and managed, and the proceeds thereof applied in the manner herein-after set forth:

1. Whatever and so often as areas of swamp lands are surveyed and transferred to the government of the province of Manitoba the number of acres forming the base of the capital of the province of Saskatchewan shall be increased by twice the area of such swamp lands so dealt with until five million acres have been so capitalized.

2. Upon the sanction of the legislative assembly of the province being given thereto by an Appropriation Act the government of Canada may from time to time upon the request of the Lieutenant-governor in council therefore make advances from such capital sum or any amount not exceeding such amount or amounts as may have been appropriated by the said legislative assembly for purposes of capital expenditure, but not exceeding \$10,000.

Dredging in the Yukon Territory—Leased of five miles each may be granted to a free miner for a term of twenty years.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have two dredges in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year, royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river, and hill claims shall not exceed 250 feet in width, measured across the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal points at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party proportionately.

Entry fee \$10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent on the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 440 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery a claim not exceeding \$14 acres including the oil well, and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

A free miner, having discovered mineral in place, may locate a claim 1,500 or 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the node or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre.

A free miner may be granted on the Minister's behalf to record claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N.W.T., excepting the Yukon

Territory—Placer mining claims are generally 100 feet square, entry fee \$50, renewable yearly. On the North Saskatchewan river claims for either bar or bench, being 100 feet long, and extending between high and low water mark, the latter includes part of the bar, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for her diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation with one engine from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental, \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory—Leased of five miles each may be granted to a free miner for a term of twenty years.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have two dredges in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year, royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river, and hill claims shall not exceed 250 feet in width, measured across the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal points at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party proportionately.

Entry fee \$10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. FARMERS' TROUBLES.

"By the Wood," Feb. 27, 1905.
Editor—

In your issue of Feb. 24th is a letter written by R. Sheppard, entitled "A Settlers Troubles" to answer which I ask of you a little of your valuable space. The writer mentions three leading trouble. 1st. The treatment we get from the buyers of our produce or more broadly, the low prices of our produce. 2nd. The state of our roads. 3rd. The high prices of our implements and other necessities of life.

He then goes on to say that the farmers should form a strong organization.

I wish to draw the writer's attention to a farmers organization that has already been running something over two years and which was founded for the very purpose of settling the very troubles spoken of. I refer to the American Society of Equity of N. A., which is attracting a great deal of the attention of our farmers here, through the work of the Canadian branch. This society is founded on a platform, broad and wide as our own vast country, yea more it is designed not only for National but for International work, as indeed it must, as farmers troubles are practically the same the world over. The cause of the trouble is the same, therefore the remedy when found will apply the world over, whether the farmer produces wheat, cotton or tea and coffee and breadfruit, and the remedy has now been found.

The platform of our society is justice and equity to all and when this is backed up by a million or more strongly organized farmers they will carry such a weight that no political party, no railway monopoly, no implement trust, no clique of buyers or association of speculators will dare oppose them with a shadow of success. The Society of Equity, Mr. Editor will not only remedy all Mr. Sheppard's troubles, but will do more, it will solve the farm labor problem, it will obtain profitable prices for all a farmer grows.

Where it is working with only a very small minority of farmers as members, it is adding hundreds of dollars annually to their incomes, no wonder its members are already hundreds of thousands and will soon be millions.

The farmers of Edmonton district are already fast organizing into this society, they know it is the thing they want, and they are enthusiastic about it, and are determined to spread the good news far and wide.

Mr. Sheppard mentions several other troubles of a more local nature, which should be remedied and can easily be, when the farmers are organized, even the troubles caused us through the "forgetfulness" of our representatives both at Ottawa and Regina.

My object Mr. Editor is to draw the attention of the writer of the article and every other troubled farmer in this beautiful Canada of ours and urge them to examine the plans of the American Society of Equity and they will be convinced of its power and worth. Full and free information can be obtained from almost any inhabitant of the Poplar Lake, Belmont, Turnip Lake or Namao school districts where our society is in full working order and officiated, as local unions or from

Buy Your Flour Now!

This is the advice we give to our numerous customers
and to the public in general

Buy Your Flour Before It Gets Higher!

We are selling Flour too cheap at present! Still, our loss is your gain.
And remember, it is bound to go up.

Stop and Consider!

Wheat has reached the \$1.06 mark in Winnipeg, \$1.19 1-2 in Minneapolis, and American millers are buying all the Canadian western wheat they can get hold of for milling purposes. The farmers of the Northern States have their eyes turned on this side of border to get their seed wheat. The last item alone means about five millions of bushels. All this will certainly influence the price of wheat, consequently the price of bread stuff.

Do Not Hesitate - - Do not Delay

Come and buy your flour from us, we have

We Paid \$100,000

For Liquozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquozone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Liquozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This product has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is Liquozone that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it can-

not kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Liquozone its worth to humanity. And that worth is no great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germ which causes a disease is destroyed, the disease must end, and forever. That is inevitable.
